

D-Cont'd

42. (New) A cosmetic or dermatological composition comprising the emulsion according to Claim 1, characterized in that the composition is in the form of a cream or a milk.

43. (New) The emulsion according to Claim 20, characterized in that the oily phase consists essentially of volatile oil.

44. (New) The emulsion according to Claim 20, characterized in that the oily phase consists essentially of silicone oil.

45. (New) The emulsion according to Claim 20, characterized in that the oily phase consists essentially of volatile silicone oil.

46. (New) A cosmetic or dermatological composition comprising the emulsion according to Claim 20, characterized in that the composition is in the form of a cream or a milk.--

SUPPORT FOR AMENDMENTS

New Claims 39-48 have been added. Support for these new claims can be found, *inter alia*, at page 6, line 19 through page 7, line 26 as well as example 1.

Claims 1-10, 12, 13, 15-32 and 34-46 are currently pending, although claims 12, 13 and 30-32 have been withdrawn from consideration.

REMARKS

The pending claims relate to oil-in-water (O/W) emulsions containing a specified copolymer and oil globules which are monodispersed. One significant benefit resulting from this unique combination of ingredients is that surfactants are not necessary to stabilize O/W emulsions containing these ingredients. As noted in the present specification, inclusion of
